

CASE STUDY  
COMMERCIAL ENTRANCES AND CURTAIN WALLING

# SERVICED OFFICE CONVERSION INTO APARTMENTS

Aticos AGS Ltd processed, supplied and installed a Commercial Curtain Walling System to the Entrance Foyer providing light to the staircase encompassing a Double Door Fail Safe/Fail Secure Fire Entry System.

To the Rear of the Building a Single Door Fire Safe/Fire Secure Entrance system in Anthracite Grey Aluminium was installed.

Both systems facilitated a multiple user intercom system.

A Commercial Aluk system was used on this project to provide the required U-Values and a strong security and safety measure.
